

Servicing Visit

- Servicing your unit
- Replace your filters
- One day on site servicing your unit
(Depending on distance)
- Full report given
- Clean Registers internal / External
- Clean counter flow heat exchanger

Overview

Should you wish us to give your Heat Recovery unit an annual service which we would strongly recommend we would be pleased to undertake this on your behalf which also ensures the system is set up correctly and working to its full potential.

Report

Our servicing visit involves a member of our technical team attending your site/home to service your ventilation system and offer full user instruction. Our servicing visit Service includes a full report with a signed service sheet. The report will also detail any work to be completed, any recommendations and replacement filter prices, together with full user guide instructions.
